ABOUT ME

I am a results-driven ICT professional with a Bachelor of Science in ICT in Education, combining strong technical expertise with proven people and sales skills. I have hands-on experience supporting over 400 students weekly in ICT learning and assisting staff with computer systems, software installation, and troubleshooting. Beyond education, I bring corporate sector experience as an Assistant Salesperson, where I boosted sales by 90% within two years, and as a Guest House Receptionist, where my customer service contributed to a 5-star client rating in a short period. I am adaptable, detail-oriented, and committed to delivering excellence in every role.

WORK EXPERIENCE

Hope College

Internship & Graduate | Teacher
Gomoa Fetteh, Ghana
2023-09-01 | 2025-09-01

At Hope College, I work as an ICT teacher, supporting both staff and students in their technology needs. My role includes teaching and guiding over 400 students each week, handling software installations, system troubleshooting, and Windows setups. I also assist staff with computer challenges, ensuring smooth operation of devices for academic.

EDUCATION

University of Education, Winneba.

Degree | BSc. ICT Education

I hold a Bachelor of Science in ICT in Education, a program that combines strong technical training with professional teaching knowledge. The course of study covered key educational foundations such as psychology, principles of teaching, and measurement and evaluation in education, preparing me for effective instruction and student engagement. On the ICT side, I developed solid skills in programming (Java, C++, PHP, HTML), system analysis and design, and database design, as well as other core computing areas. This unique blend of technical

expertise and pedagogical training equips me to both teach ICT effectively and apply it in practical, real-world contexts.
